

430

DESCRIPTION:

Heavy Duty Biodegradable Citrus Degreaser. 100% Organic cleaner contains no caustic, acid or chlorinated compounds. Suitable for printing, automotive, metalworking and food processing industries. Will remove oils, grease, fat, grime, tar, glues, two pot glues and resins before curing. Non toxic.

Available in 500 ml Net Aerosol Can and Bulk as 530.

CHARACTERISTICS:

Organic Product

Made with a blend of oils from the pacific islands palms and by-products of cultivated citrus plants grown in tropical regions. This combination not only offers a natural organic product, but also assists in the reduction of environmental contamination by, firstly utilising a by-product from a food process and secondly by reducing the amounts of synthetic and petrochemical contamination in the environment.

Biodegradable

430 is a natural organic product which when applied will give cleaning results superior to solvent or detergent based cleaners, and 430's components have the ability to biodegrade.

Non Toxic

When diluted at 1:10 or more with water, Mainlube 430 is non-toxic, non irritating to skin and harmless to all metals and fabrics. To use in areas where food processing occurs all food must removed prior to application and all surfaces well rinsed with potable water to remove any odour before food is returned.

In Garages, Factories, Shops and Farms.
